## Intuitive Healing with Selacia of Communication for Transformation Group

Rev. Selacia offers DNA intuitive healing and related healing sessions as an ancient rite of sacred spiritual practice, combined with spiritual counseling.

The private healing sessions are offered as a gradual, cooperative process intended to enhance the clarity and expression of spirituality.

I understand that Rev. Selacia is neither a medical doctor nor licensed health practitioner/provider. I have not come to her for medical advice, diagnoses and/or treatment.

I understand that no medical claim is made as to the effect or outcome of this spiritual service.

I have sought this sacred spiritual service combined with spiritual counseling of my own free will.
